DETAILED ACTION

Specification

1. Applicant should update the parent information in paragraph 1 on page 1 in the specification.

2. The abstract of the disclosure is objected to because of the following informalities:

- "(t)he actuator . . . machine"(lines 3-6). In this phrase, "by the through" is awkwardly worded.
- --a-- should be inserted after "to"(line 10).
- --the-- should be inserted before "feed"(last line).
- --the-- should be inserted before "lower"(last line).
- --section-- should be inserted after "rod"(last line).

Correction is required. See MPEP § 608.01(b).

Drawings

3. The drawings are objected to because clearly figures 6a,6b,7a,7b, and 8 are informal. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate

changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- "the outer surface"(claim 7, line 3) and "the upper end"(claim 8, line 4) both lack proper antecedent basis since they were not properly earlier referred to.

Allowable Subject Matter

6. Claims 1-6 are allowed.

Art Unit: 3724

7. Claims 7 and 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
